WORK EXPERIENCE

1. Web Development and Designing Intern | [Offer Letter](#) | [Completion Certificate](#) | [Github Repo](#) (July 2023 - August 2023) Tech-A-Intern | Remote Internship

- Designed and developed 3 projects and honed my skills in various web technologies like HTML, CSS, Tailwind CSS, APIs, and JavaScript.
- Calmly faced all the difficulties that came head-on during the internship and solved them patiently. Made creative designs, and paid attention to small details while making each project.

PERSONAL PROJECTS

1. CineVault - Your Gateway to Cinema | [Github Link](#) | [Live Link](#) | ReactJS, TMDB API, CSS, Tailwind CSS, Vite

- Designed and deployed a comprehensive React.js website, powered by the TMDB API, with a collection of over 830K movies and 150K TV series, which includes detailed movie and TV series pages, cast information, episode guides, and actor profiles.
- Created information-rich pages for each movie and TV series, offering detailed insights such as plot overview, budget, rating, watch providers, release date, directors, cast, videos, images, similar movies, recommendations, etc.
- Integrated user-friendly explore and search functionalities, allowing users to filter content by popularity, top ratings, and genres. Implemented a robust search feature for quick access to movies, TV series, and people profiles.
- The whole website has a professional look and meets industry standards, like lazy loading of images, page skeletons while loading and infinite scrolling.

2. NanoNotes - Note Taking Application | [Github Link](#) | [Live Link](#) | NodeJS, ExpressJS, MongoDB, EJS, CSS, Bootstrap

- It is a professional-looking, user-friendly note-taking website with a minimalist design and intuitive interface.
- Implemented a secure cloud-based storage system, enabling users to add, update, and delete notes across multiple devices, the database consists of 3 collections, for storing the user data, user sessions, and the notes created by the user.
- Integrated a powerful search functionality for retrieval of specific notes based on keywords or phrases.
- Prioritized user privacy and data security by implementing Google authorization with the help of the powerful Passport Google OAuth2.0 NPM package.
